

SUMMARY:

- Bachelor's degree in Automated Production Engineering from École de technologie supérieure.
- 4 years of experience in the manufacturing sector.
- Solid knowledge of automation, notably Allen-Bradley PLC programming.
- Solid knowledge of industrial drawing, especially with SolidWorks, AutoCAD and Inventor.
- Advanced training in project management.
- Results-oriented, disciplined, autonomous, with a strong sense of responsibility and initiative.
- Holds a Class 5 and Class 6A driver's licence.
- Languages: French, Arabic, English.

EXPERIENCE:

Data Acquisition Specialist

Decide4Action (consultant), Victoriaville, QC

01/2026 – Present

- Integration of Production4Action, an OEE software, at client sites.
- On-site audits at client sites and needs assessment.
- Assessment of production lines and reading of PLC programs. Signal extraction and MQTT Explorer configuration.
- NodeRED programming to read signals.
- SQL database configuration and software performance monitoring.

Manufacturing Process Specialist

IPEX Management (injection molding), Verdun, QC

10/2023 – 07/2025

- Document operators' know-how as work instructions: injection molding press, robots, maintenance, etc.
- Ensure that plants follow corporate health and safety recommendations.
- Research, study and recommend new injection molding technologies.
- Support commissioning projects for robotic cells.

Industrial Process Advisor (Processes)

Lumen (electrical distributor), Laval, QC

04/2022 – 10/2023

- Visit and support clients and representatives in the field of industrial processes.
- Give presentations and demonstrations of the Rockwell DCS (PlantPAx).
- Launch of Fanuc robot sales in Montréal.
- Presentation and integration of the FactoryTalk DataView visualization software.
- Presentation and assembly of the Samson Controls 3241 valve.

INTERNSHIP EXPERIENCE:

Project Manager

Wilton Panorama (window manufacturer), Montréal

04/2019 – 09/2019

- Set up a new production and assembly line at the plant.
- Produced press guards approved by the CNESST.

VBA Programmer (Visual Basic for Applications)

Les moulins de Soulanges (flour producer), St-Polycarpe, QC

01/2018 – 05/2018

- Programmed key performance indicator (KPI) applications with Excel 2010.
- Set up a new gluten-free flour production line.

PLC Programmer

Qualtech (automation integrator), Québec, QC

01/2017 – 08/2017

- Programmed automatic email sending from the PLC using Logix Designer.
- Installed the application at client sites, testing and commissioning.

ACHIEVEMENTS:

Decide4Action (Consultant), Victoriaville, QC

- Completed 2 P4A software integration projects for 2 clients in the United States.

IPEX Management (injection molding), Verdun, QC

- Wrote and approved dozens of SOPs for the various plants.

Lumen (electrical distributor), Laval, QC

- Increased valve sales in Montréal by 12%.

École de technologie supérieure, Montréal

- Commissioned an automated production line: ABB robots + Rockwell PLC.

EDUCATION:

Systems Engineering Training (Machine Learning)

École de technologie supérieure, Montréal

09/2020 – 04/2022

Bachelor's Degree in Automated Production Engineering

École de technologie supérieure, Montréal

09/2016 – 04/2020

CERTIFICATIONS:

Six Sigma Green Belt

École de technologie supérieure, Montréal

09/2024 – 10/2024

Project Management Certificate

Google

10/2026 – 10/2026
